Marcia,

It looks like there are three facilities listed in your spreadsheet that are located in Region 4. From the research I conducted it appears there is only one that is a well site (Mosley #1) and the other two appear to be compressor stations. I highlighted the well site in blue (I could not find the save button so I hope my changes were saved).

Subject: 0000a compliance reports for well sites

Welcome back!

Would you be able to look at the attached .xls and highlight the R4 facilities which are well sites? You may choose a color which is not already used (R5, 6, 8 and 9 are done). CEDRIO000aSearchResults.xlsx

We will then download the compliance reports and do some data mining for the fugitives program at low production well sites, for the NSPS 0000a reconsideration. I am happy to provide more context, if you wish. Thanks, in advance.
